**Build a New Source of Revenue
with ConnectShip | iShip Multi-Carrier Solutions**

Customer Demand Becomes New Revenue

Why become a ConnectShip | iShip Partner? To keep pace with your customers' shipping optimization demands while adding a revenue stream to your business! Partnering with ConnectShip | iShip provides your customers with the multi-carrier compliance and shipping capabilities they want. This value-added benefit for your customer then becomes a new source of revenue for you.

More Control with Lower Costs

Integrate the powerful Prologistics carrier compliance engine into your TMS/WMS to reduce your development costs and speed your time to market. Customers get everything they need to ship in one system.

Superior Solutions— ConnectShip | iShip Toolkit provides you with all the tools you need to enable multi-carrier shipping in almost any business application. Toolkit gives you access to a comprehensive SDK, full documentation, and User Forum with a searchable knowledgebase.

On-Premise and Off-Premise Options - Our ConnectShip | iShip Warehouse and Professional Shipping Station (PSS) applications deliver central management of shipping from multiple locations and powerful integration capabilities.

You decide whether your customer needs an on-premise (Warehouse) or off-premise (PSS) model.

Carrier Compliance – For more than 35 years, our core business has been carrier compliance. Through our component-based carrier compliance engine and in collaboration with our solution provider partners, we offer access to more than 200 carriers worldwide through a common technology interface. Our Global Server Component provides a framework for you to on-board local, regional, and international carriers.

Our Comprehensive Partner Program

In addition to licensing one of the most relied-upon shipping solutions in the industry, you get the benefits of a comprehensive partner program.

Co-Marketing Opportunities – Web pages devoted to partners' news and information, a lead generation program, and co-marketing campaigns are all available as part of the partner program. Promote your business as a sponsor or exhibitor at ICON, the ConnectShip | iShip Technology Conference, and network with your peers at PartnerShip, our annual partner conference.

Support – You will have a dedicated Channel Manager, a web portal for 24/7/365 support access, and exclusive access to the quarterly, partner-only webinars to stay informed of new developments.

Training Program - We provide face-to-face and interactive on site and online training courses. Trainees walk away from our training courses ready to integrate and fully-leverage the capabilities of the software.

Our partners see substantial increases in business year-over-year. Many have been a part of our network for more than 20 years. We offer all of the capabilities you need from an international corporation but with the access and transparency of an a small business.
